

HYK

Earth Drill/Hydraulic Motor

RELIABLE HYDRAULIC MOTOR FOR EXCAVATORS, CRANES AND FRONT LOADERS

Hydraulic motor HYK from Auger Torque is a reliable and high-performance hydraulic motor designed for use with excavators, cranes and front loaders, specially in tasks such as earth drilling. High rotational torque and equipped with planetary gear motor eliminating need for tramp oil. Output shaft bearing that are 50% larger than competitors' comparable drives ensures maximum durability and performance.

The HYK motor is compatible with a wide range of augers, providing versatility and efficiency for different types of drilling tasks. If required, additional models are available to suit machines from 1,5 to 50 tons.

ACCESSORIES:

Auger BOR, Auger Adapter with cradle BAD, Auger Extension BFÖ, Adapter ADBOR

PRODUCT	ITEM NUMBER	DRIVE	OPERATING WEIGHT (ton)	BRACKET	PRESSURE (Max Bar)	FLOW (l/min)	TORQUE (Nm)
HYK 2	041-02010-878-65	RND65	1 - 2,5	Shaft	240	25-57	< 2 200
HYK 2,5	041-03010-878-65	RND65	1,5 - 3		240	27-65	< 2 800
HYK 3	041-03010-879-65	RND65	2 - 4		240	27-75	< 2 900
HYK 4,5	041-05010-883-65	RND65	3 - 5		240	50-95	< 4 700
HYK 7	041-07010-881-75	SQR75	5 - 7		260	60-135	< 6 800
HYK 15	041-15010-887-75	SQR75	10 - 15		240	80-170	< 15 071
HYK 25	041-05075-890-22	SQR75	15 - 22		240	80-170	< 24 800
