

## RBE

# Sleeper Grapple

### SMALL, SIMPLE, FUNCTIONAL AND EASY-TO-HANDLE FOR SMALLER WORKS

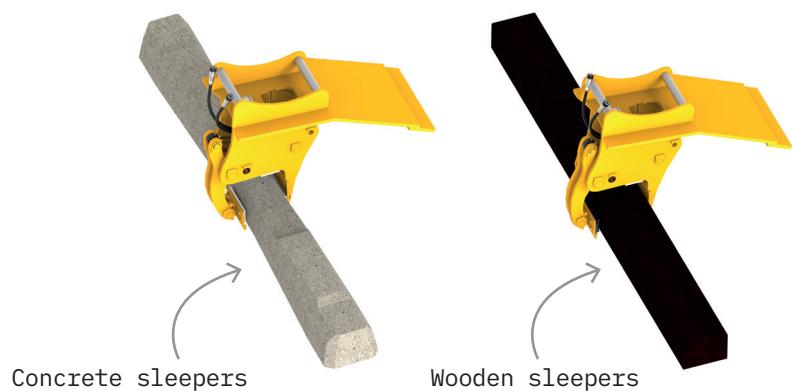

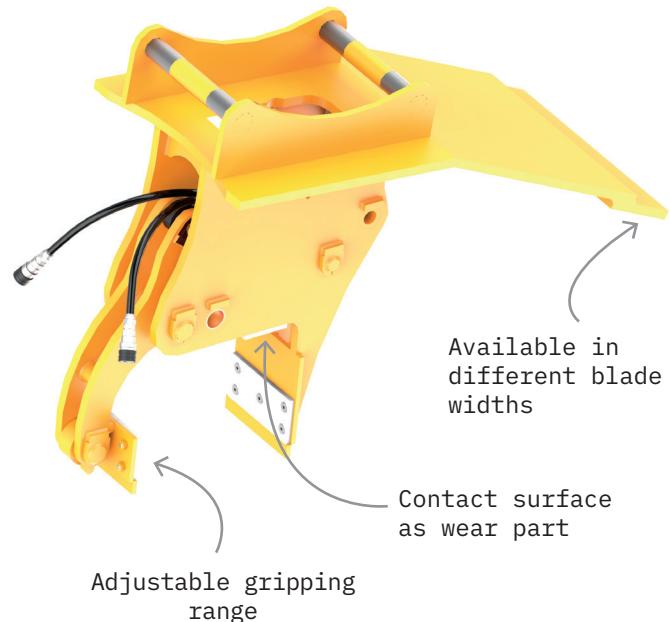

A small and easy-to-handle sleeper grapple with ballast blade when only a few sleepers will be replaced.

Angled grip ensures the ballast blade gets optimal angle, extremely useful in tight areas, such as changing sleepers in switches.

- Replaceable plates for concrete and wood sleepers included as standard
- The ballast blade width is standard 300mm or 500mm

### ACCESSORIES

Fully hydraulic quick couplers

PRODUCT	ITEM NUMBER	BRACKET	WEIGHT (kg)	OPENING (mm)	BLADE WIDTH (mm)
RBE	158-00107-000-03	S45	200	350	300
	158-00109-000-03	S50	200		
	158-00111-000-30	S60	210		
	158-00107-000-05	S45	250		500
	158-00109-000-00	S50	250		
	158-00111-000-00	S60	260		

### EXCAVATOR REQUIREMENTS

One hydraulic circuit, Oil flow: 30-60 l/min,  
Max pressure: 200 bar
